

Manta 800 Sospeso Monoemissione

CP161011L3

Available from June 2025.

Designed to furnish spaces with lightness, Manta is distinguished by its shaped and moulded aluminium reflector, which takes the form of a perfect circle, available in 500 and 800 mm sizes. The special curvature of the material ensures solidity and strength and promotes effective heat dissipation, guaranteeing high overall efficiency. The luminaire, ceiling mounted or suspended, provides direct lighting thanks to a hemispherical optic that optimises visual comfort, ideal for both work areas and spacious rooms. Indirect, diffuse and uniform light is generated by a prismatic diffuser positioned at the rear, creating an enveloping and harmonious atmosphere. For the ceiling version, Manta allows the orientation of the wings to be adjusted even after installation, offering a high degree of adaptability. It is possible to install Manta individually, in pairs or in groups, in order to create balanced and dynamic compositions, perfect for enhancing any type of context.

Characteristics

Finish	Light blue RAL 7000
Configuration	Suspension
IP rating	IP 20
Insulation class	1
Lamp type	LED
Power supply	included
Dimming	Phase-cut
Watt	14W
LED	220-240V
LED colour	3K
Emission	Single-emission
Lumen	1.350 lm
CRI	CRI > 90
Length (mm)	2800
Diameter (mm)	500
Conformity mark	CE, UKCA
Designer	
Year	2025

Color: Light blue RAL 7000
